

What Students Are Saying About Official SAT[®] Practice on Khan Academy[®]

More than 2.7 million students are signed up for Official SAT Practice to get ready for the SAT. Here's what a few of them had to say.

Valencia, Senior
Booker T. Washington
High School
Houston, Texas

Valencia's SAT score was 470 points higher than her PSAT/NMSQT[®] score.

"I want to play sports at a Division 1 university. Khan gave me the winning edge. With Khan Academy, every time I got a question wrong, I was able to go back and do it again and get better and better. I was able to study and stay focused. Since getting my SAT scores back, I've gotten at least 10 emails and calls from colleges trying to recruit me."

Tatiana, Senior
Oak Ridge High School
Orlando, Fla.

Tatiana's SAT score was 250 points higher than her PSAT/NMSQT score.

"I love that Khan Academy shows you your errors. It really helped me in understanding words in context, it really broke it down for me. With the PSAT/NMSQT score I doubted myself, but my teachers showed me with Khan Academy I could do it. If it wasn't for Khan Academy, I wouldn't have access to SAT practice at all. It's a godsend!"

Matthew, Senior
Booker T. Washington
High School
Houston, Texas

Matthew's SAT score was 200 points higher than his PSAT/NMSQT score.

"All I had before was a dictionary and books I could take from the library. When my teachers introduced me to Khan Academy, I was so happy that it was free. The website was simple, straight to the point, and it really helped me with problem solving."

Camila, Senior
Millikan High School
Long Beach, Calif.

Camila's SAT score was 300 points higher than her PSAT/NMSQT score.

"What I like is that it gives you a schedule to keep track—every month it gave me a practice test on what I had been working on. I was kind of surprised the first time I increased [my score] 200 points [on a practice test]—so I realized the more work I could put in, the more I would get out of it."
