

CONSOLIDATED SCHOOL DISTRICT OF NEW BRITAIN

Board Policy Statement

4300.00 - Salaries and Working Conditions for Classified Personnel

Approved on May 19, 2014

Proposed that it is the Policy of the Board of Education that when any position not covered directly by a union contract has a change in status (salary, p/t vs. f/t benefits, or any other change that would require an adjustment to the budget line item associated with that position, whether that adjustment is monetary or descriptive) that change must be presented to the Personnel and Finance Committees and then to the full Board of Education for final acceptance or rejection. A change in line item can mean either mid-year, or when presented in the full year budget (when presented in the context of the full year budget the change shall be noted and highlighted).
